

VOTING DELEGATES FORMULA CHART

Each chapter is represented at the Delegate Assembly through its voting delegation. Delegates conduct the business of the state organization and are chosen by their local chapter. The number of delegates representing each chapter is determined by the chapter's active membership at the end of last year. A roster from last year is enclosed.

The chapter advisor is responsible for notifying delegates of their assignments, duties and responsibilities. Delegates will be seated in a section reserved for this group. Chapter identification signs will be furnished at the conference for each school attending.

Instructions for voting delegates are included in the enclosed materials. Eligible number of voting delegates is determined by using the following formula:

5 to 19	student members	3	voting delegate
20 to 29	student members	4	voting delegates
30 to 39	student members	5	voting delegates
40 to 49	student members	6	voting delegates
* One additional delegate may be added for each ten-student member above 49.
